EQUIPEMENT FEATURES

Rear door with hydraulic opening,
closed by hand wheels
(optional : door hydraulic locking)

Suction valve Ø 110
Discharge valve Ø 100
(optional : Ø 115)

Control panel on the rear side

Control panel on hose reel

optional : stainless steel plates

optional : mud guards with steel cover

Plastic tool box with bolting door

180° reel swivel

Manual swivel
(optional : hydraulic swivel)

Eco Basic mud guards

Reel capacity :
100m of 3/4" hose or
150m of 1" hose
(according to HP pump)

Manual hose guide

optional : work light

Truck original rear bumper

1 Water filling pipe with hose holder

Optional : Huer stainless steel bumper

Optional : Stone box

Flexible suction pipe

Sludge level

Tank tipping with hydraulic cylinders

Hose box with side openings

optional : hose tray

HP pump with pneumatic clutch

Fixed steel cover on pump unit
(optional : without cover)

Vacuum pump with pneumatic clutch
