

ALTERNATIVES FOR HIGH PRESSURE PUMP

Power : 50 HP

203 l/min at 100 bar or 134 l/min at 150 bar for 3/4" hose

Power : 100 HP

192 l/min at 200 bar for 3/4" hose

240 l/min at 160 bar for 1" hose

Power : 150 HP

315 l/min at 150/170 bar or 260 l/min at 190/200 bar for 1" hose

ALTERNATIVES FOR VACUUM PUMP

WATER-COOLED VACUUM PUMP WITH ROTOR VANES :

HU 750 (700 m³/h at 60% vacuum)

HU 1000 (1130 m³/h at 60% vacuum)

ROTARY PISTONS BLOWER WITH FRESH AIR INJECTIONS

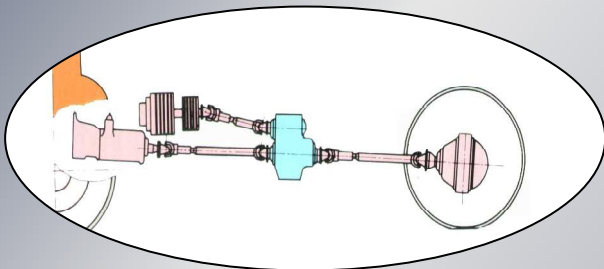

VTB 820 (1400 m³/h at 60% vacuum)

PUMP DRIVE

2 possible choices :

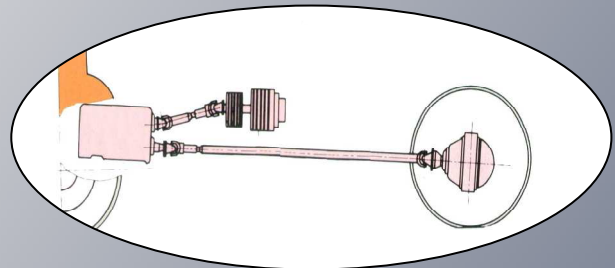

By transfer case

(pump drive with stationary vehicle only)

By power take off

(possible drive with vehicle running at maxi 20 km/h)

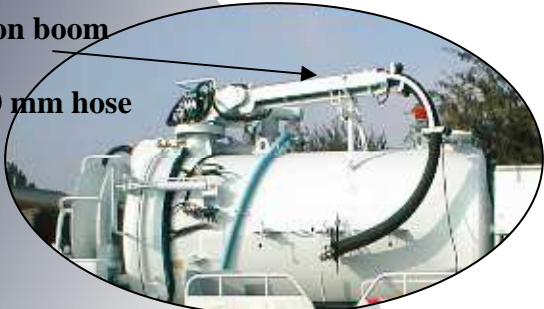

ASSEMBLY ON REQUEST

The ECO BASIC equipment can be assembled without chassis-cab in our workshops. It can be delivered in kit form and shipped in container. On request, delivery with or without paint.

OPTIONAL FITTINGS

Suction boom
for
Ø 100 mm hose

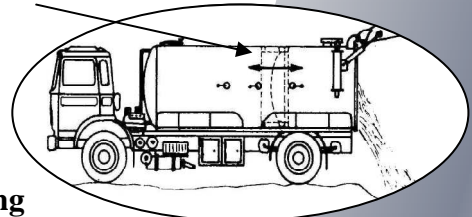

Moving partition
with locking bolts :
To change the water and
sludge capacities in the tank
For easy tank discharge in
association with hydraulic tipping

Hand reel
for 40m or 60m
of 1/2" hose
(or fixed bracket)

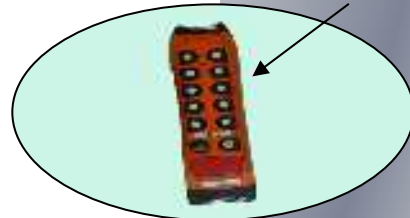

Work warning
panel with lightning
and pneumatic
up/down control

Flashing light

Radio-control

Smell adsorbing
filter cartridge

Further options :

- Water lock safety for high pressure pump
- Foldable ladder mounted on bracket...

For countries with E.C norms :

- Equipment conformity with the European Machinery Directives
- Regulation of sound level (Directive 2000/14/CE)
- CEM electromagnetic conformity (Directive 89/336/CE)

Safety crutch

Rear door locking with
hydraulic clamps fitted
with protection

Access handles

Bracket for
ladder

Rigid
HP pipe

Control panel with emergency stop, manipulator
for hose coiling and uncoiling combined with
dead man control for HP works

Rear bumper according to E.C norms
with extension and manual lock.
Red/white reflecting stripes

(Optional : Rear bumper with manual lift)
